ITE Section Meeting
Wednesday, February 19, 2020
11:45 AM – 1:00 PM

Speaker: Peter Koonce, P.E., Division Manager, Signals & Street Lighting Division at City of Portland in Oregon

Topic: Street Design Principles to Advance Vision Zero and its Application in Hawaii

Peter Koonce, P.E., has been described as one of the most progressive transportation engineers in the United States, dedicating his life to innovative treatments that improve the safety of multimodal travel. He has worked in the public and private sector and as an adjunct professor at Portland State University teaching graduate level courses in transportation engineering. He is a member of the Bicycle Technical Committee of the National Committee on Uniform Traffic Control Devices and is active with multiple professional societies including Institute of Transportation Engineers, the National Association of City Transportation Officials, and the Association of Pedestrian and Bicycle Professionals.

Location: Wilson Okamoto Corporation Conference Room
1907 South Beretania Street, Suite 400
Honolulu, Hawaii 96826

Lunch: $10 for ITE members, $12 for non-members, and $8 for students

RSVP: jkaehuaea@atahawaii.com by Friday, February 7th

Payment for lunch shall be made at the meeting. Notice of cancellation must be received by the RSVP deadline. “No Shows” will be billed.
